

Nominee for Treasurer, AISS EXCO 2012/13

Life is a continuous learning process, no matter how young or old you are, and no matter who you are. I'm a person who seeks new learning and enhance my existing knowledge. For me, mastery is an art. These determined my ambition to pursue an international professional qualification ideally as an ACCA/ICPAS registered student. I'm a people person. I enjoy meeting and working with different people with the same values and vision. My positive view in life guides my experiences to be my teacher in life. I never regret any experience I had for I believe, everything happens for a reason for the betterment of one's life.

An active supporter of Parish Renewal Experience, a Catholic organization in the Holy Trinity Church, Tampines, I strongly believe in serving God thru mankind.

I am a CPA from the Philippines. Before my family decided to settle in Singapore, I had been an active officer of Philippine Institute of Certified Public Accountants (PICPA), an Accredited Professional Organization (APO) of CPAs by the Professional Regulation Commission (PRC) of the Philippines. I am exempted with the knowledge level, F1-F3 of ACCA and I am currently taking Corporate and Business Law, F4 and Taxation, F6.

Considering myself as a student member of one of the highly regarded organization, my main concern would be the awareness of each members for what AISS can do. Members are the body of the organization, it's what every organization exist. We therefore, give our listening ears and caring heart to each members. To be more pro-active with what students would be needing not only academically but, as well as morally, spiritually, socially and personally, having regard to the characteristic spirit of the organization. Together, we can make the organization where students will view as one of their tool and partner from the time they are still prospective students towards their career path of being a Chartered Accountant as well as Public Accountant. An organization where great camaraderie could be experienced by each student especially those who were under pressure of studying as well as working.
